Grindr

Internship

Dear: Company of Grindr,

As a young and motivated individual I am extremely interested in submitting an application for the advertised volunteer internship position at Grindr Company. I am currently an undergraduate student at San Jose State University majoring in Software Engineering. I've taken many classes that prepared me and has made me capable of being a volunteer at Grindr. I have developed communication and interpersonal skills by working with my peers in class, and I have also learned many programming languages such as C, C++, Java, Python, HTML, and CSS. This has given me key experience and what to expect when working in a professional and fast-paced software development company.

My teachers, professors, families, and friends have commended me for my naturally engaging personality. My motivations include learning new things and facing challenges that will enable me to do a better job and become more skilled.

I would appreciate the opportunity to meet with you to discuss my application at an interview. I have enclosed a copy of my resume for your consideration. I can be contacted everyday at any time.

Thank you for taking your time to read this.
